

Dear parent or carer,

As part of our work with children and young people with SEND, we will be talking to them about their hopes and aspirations for the future.

We want to understand what is important to them, what they are looking forward to, and what support will help them prepare for adult life. Their views will help us better understand the priorities, experiences and ambitions of children and young people across Stoke-on-Trent.

During our conversation, we may ask questions such as:

- What are you excited about when you are older?
- What would help you get ready for adult life?
- What would you like adults (like your parents or carers, or teachers) to understand about your plans, hopes and dreams for the future?

We know that parents and carers also have valuable insights to share. If you would like to contribute your views, please complete our online feedback form using the QR code at the bottom of the sheet.

The form includes the following questions:

- When you think about your child or young person's future, what matters most to you?
- What would help your child or young person prepare for adult life?
- What would you like professionals and services to understand about your child or young person's future?

Thank you for supporting this work. Your feedback will help us better understand what contributes to successful transitions for children and young people with SEND.

With best wishes

Suzi Edginton | Local Offer Lead

Kellie Williams | Participation Lead
